

## Company Profile

### Our History

Creative Net Solution was founded in 2005 and is headquartered in New Delhi City. The Company realized exponential growth by offering a basic web hosting solution subsidized by Internet advertising revenue. As a result, Creative Net Solution grew to become one of the India's largest independent web hosting providers, hosting 1 million web pages and creating the 170th most visited web property on the planet by early 2007.

Today, Creative Net Solution has established an industry-wide reputation as the market-leading provider of web services for small businesses and individuals. The Company is well funded and financially successful. We demonstrate to our loyal customers each day our commitment to provide the best services available in the market - without exception. We focus on the important things - easy to use quality services at affordable prices. Our mix of superior technology and dedication to customer support has helped us build a customer base of thousands who refer their friends and associates to Creative Net Solution each day.
